

## FALL TIME DIY

Create a birdfeeder for your feathery friends. Cut an apple into slices and place on a paper towel to dry. Spread a layer of peanut butter on your apple slices. Pour birdseed onto a plate and dip the apple slices (peanut butter side down). Have an adult thread a needle with a string and push through the apple near the top. They are ready to be hung on a tree!

## FFCU Saving Blog Wants VS Needs

A great way to save money is to learn about wants & needs.

A need is something you must have to survive like food and water. A want is something you can live without, like a bike or gaming system.

Circle the Needs in **Blue** and Wants in **Red**

Ice-Cream  
Water  
Hoverboard
